Letter Amendment (First) to the Distributor Agreement

Ashland Climate · 16 June 2022

Dear Hartwell team,

With the refrigerant changeover under way and the stock our distributors are holding, we are revising Schedule A in two places for the 2022 Program Year. Both changes take effect from 1 January 2022, except where noted below.

First, in paragraph (b) of Schedule A the entry point for the third tier is lowered from $49,000,000 to $41,500,000. The rates themselves do not change.

Second, a transition incentive of 1.50% is paid on Eligible Purchases of R-454B equipment invoiced between 1 July 2022 and 31 December 2022; it is settled together with the annual rebate.

Everything else in the Agreement stands.

Kind regards,
Priya Nandakumar
Head of Channel Programs, Ashland Climate
